**Terrorism...**

## **The great lie of imperialism in the 20<sup>th</sup> century**

The «Reports of international terrorism» that are published yearly by the main enemy of people, the USA and their executioner the CIA are documents of the great lie.

Imperialism, that is the wire-puller of all the wrong that is done to the world and that is to blame

for all these crimes, characterises every organisation and every land that is fighting against its leadership as «terrorist».

The DHKC, the **Revolutionary People's Liberation Front**, that is fighting in Turkey and Kurdistan for the liberation of peo-

ple against imperialism and fascism's bloody dictatorship, is named in the first rank in the «List of terrorist organisations» that is circulated by the CIA. For example in the report «News from the International Terror Bureau» of 1994 (that is issued under the re-

sponsibility of the White House and in reality subordinated to the CIA) Devrimci Sol is described as one of the 12 most dangerous organisations of the world. In the report of 1995 published by the CIA the **Revolutionary People's Liberation Party-Front** is declared as dangerous for imperialism and for the USA.

The intention of these reports published by the CIA or subordinate institutions is to incriminate all patriotic and revolutionary organisations that fight for independence, democracy and socialism and all the countries that do not capitulate before imperialism, and to make other governments and collaborating regimes fight against these organisations. To fulfil that duty they work on the one hand with broad investigations and statistics and on the other hand with misrepresentations and distortions of facts.

These reports have to serve as official reasons for attacks and massacres against the revolutionary and patriotic organisations and their members, against Cuba, Vietnam, countries like Iran or Libya that have not capitulated to imperialism.

### **We do not accept being condemned as terrorists!**

It is not terrorism to fight against governments that are oppressing the people. It is not terrorism to defend our country against imperialism and to fight for the power of the working people. And that is exactly what the **Revolutionary People's Liberation Party-Front** is doing!

### **For us it is a honour to be described as dangerous for Imperialism and USA**

It proves that the fight of our peoples of Turkish, Kurdish or Lazs origin for freedom and independence is just and upright. It must be our strategy to fight against imperialism, which brings torture, execution, unemployment and misery to its own people; to fight against the regimes that collaborate with it; to fight against

imperialism which supports all the dictatorships that spill the blood of their people and that exploit all the people of the world, to fight against the troops of US imperialism, who for decades brought only tears and blood to the people of the world with them bombs. Our strategy, must be to defeat imperialism, and to create an independent and free country. The desire for independence and freedom is just. It draws its strength from history. No demagogy can run that down.

For this reason we will go on fighting against imperialism and oligarchy for the aim of freedom of our people for the independence of our country. Under our blows the demagogy against 'terrorism' will vanish. Our party stands for justice and legitimacy. It is our duty to point out the real terrorism, that threatens the people of the world, and those who carry out the real terrorists, before the eyes of the world.

### **The real source of terrorism is imperialism**

The real terrorists are the regimes from the 'guardian of freedom' USA, to the 'Home of democracy' France, those all imperialist and the collaborating regimes with their exploiting and oppressing administrations.

#### **They are to blame!**

They exploit more than 2 billion people.

#### **They are guilty!**

They are responsible for the death of millions of people each year, dying from hunger, illness or accidents at work.

#### **They are guilty!**

They answer the desire of the people for independence, justice and freedom with bombs and guns.

#### **They are guilty!**

Their reports of terror which are published by their news agencies and by their television stations which clutch the world like the arms of a octopus. These reports only show their agitation and their efforts to hide their guilt.

We, the people of the **Revolutionary People's Liberation Front**, wherever we are, fight against imperialist terror. The terror that is turned against all the peoples of the world, that makes them die from hunger and massacres. In our hearts we feel the pain and the fury of every oppressed people.

From now on the **Revolutionary People's Liberation Front** will publish reports of the guilt of Imperialism and point out the acts of the real terrorists and so share the pain and the fury with the people of the world. Those reports of guilt that are worked out from our committee of international relations will carry out the tasks of distributing our appeal for resistance and war against imperialism all over the world.

### **History is a report of the guilt of imperialism**

The list we will show to the general public is only a summary of the imperialist guilt. In the first line at the guilty is the USA, and with them all imperialists, their collaborators, their secret services, their military, their police, their bureaucrats and communication monopolies, their banks, stock exchanges and their courts. Every day they commit new crimes against the people of the world and they terrorize the people who demand independence, freedom, equality, democracy and solidarity. They terrorize those who are fighting for their national honour, for the honour of mankind, for a «better world». We appeal to the general public and the people of the world to stop the terror of imperialism, which is making the world uninhabitable, to stop the terror of imperialism that brings us pain and tears.

Only if imperialism dies, will the terror come to an end.

Here are the reports of the crimes, here are the guilty ones.

**THE JUDGEMENT BELONGS TO HISTORY AND TO THE PEOPLE OF THE WORLD.**

**THE SOURCE OF TERRORISM:** Imperialism.

**THE AIM OF IMPERIALISM:** To take away all the things produced by the working people from America to Asia, from Europe to Africa, from the majority of mankind, to destroy their resources to reproduce the parasitic life of the ruling classes. And in order to do this, to oppress people, groups, organisations and countries with counter-revolutionary violence and to discourage them. And to make its system rule the whole world economically, militarily and politically.

**THE ORGANISATION OF IMPERIALISM:**

Above all imperialism has a military attack organisation NATO. For economic terror, it has the World Bank and IMF at its disposal. It tries to use the international organisations such as UN and the regional alliances in this way.

Besides that, each imperialist country and each collaboration regime has its own national army, police, secret service and special terror-forces, which have different names in each country. According to the nature and size of the «threat» to imperialist exploitation, one or all means of terror are used. The area in which these terror organisations act, are in fact not limited

through national or international contracts. This can be seen above all in the case of NATO. All they care for is the safety of the imperialist and its collaborating governments to protect the system of exploitation. They don't care about rules, laws and traditions. They use every instrument to reach the goal. Imperialism is organized in a hierarchical structure that is built like a net. In this net one can find every capital of each imperialist or collaborating country, with the Pentagon and the White House at its top. According to the nature of the acts of terror against the people of the world, public or secret orders run from the governments to military and police, to secret service counter-guerrilla organisations and from there to the who carry out the actions directly.

**FINANCIAL INSTRUMENTS:**

It looks like the state is the financier of all those organisations. But in fact all those imperialist and fascist terror organisations are payed from the taxes that imperialism draws in an unjust way from the working people all over the world. The taxes, payed by industrialists and imperialistic monopolies are nothing else than wages stolen from the working people. Those taxes that build the income of the state are passed on in public or hidden funds directly to these terror instruments.

**MAIN TERROR ACTIVITIES:**

occupations  
massacres  
military coups  
provocations  
counter-guerrilla-operations  
embargo, economic or political blockades  
assassination and sabotage  
torture, disappearance, chemical weapons etc.  
export of terror instruments and specialists for use against the people

# THE CRIMES OF IMPERIALISM

## UNITED STATES OF AMERICA

### REPORT OF THEIR CRIMES:

The USA is the main enemy of the people of the world and the number one terrorist. They are source and focus of all crimes committed against the people of the world. Their place at the top of list is beyond dispute. And every day USA adds a new wrong to the existing crimes. Even the summarize of their wrongs is endless. tioned by the USA in Honduras and were called «freedom fighters». The USA gave them weapons and made them attack the people.

\* USA has in the years 1946 to 1975 alone, in about 215 cases used its military to achieve its aims. In the same years, in used of nuclear on 19 occasions.

\* After the break-up the socialist block, US imperialism organized numerous plots to divide the people. It used the national sentiments of the people to provoke reactionary civil wars.

As Truman bombed Hiroshima and Nagasaki for the «free world», as

Eisenhower destroyed the people of Korea, as Johnson and Nixon burned and destroyed Vietnam, as Bush set the Middle East in flames to pay his debts to Trusts, and as Clinton strives for his New World Order, they take the leadership in the attacks against socialism and in the Middle East it organise massacres and torture against the Turkish and Kurdish people.

## GERMANY

### LIST OF ITS CRIMES:

Germany wrote the most bloody and shameful history in the history of mankind. It was a terror-regime in the opinion of all people. It created Hitler. To bury Hitler under history is the duty of the Germans. Today German imperialists are the most important supporter and guardian of racism. It is a real

police state. Its terror organisation named GSG9 doesn't know any laws if it is necessary. Germany tried to occupy the whole European continent from Greece to France, from Bulgaria to Poland. It used the most unbelievable torture methods against the peoples and massacred them.

\* It has a place in the first line in the killing of 30 million of people and wounding 35 million people during the Second World War. In the Soviet Union alone it destroyed 1 718 cities and 70 000 towns only in the Soviet Union

and massacred about 20 million people. It left 25 million of people homeless. In its gas chambers and crematoria more than 6 millions of Jews and communists were murdered.

\* In the Middle East Germany tries in various ways to get a traitorous in the south of Kurdistan.

\* It is the supporter of the fascist regime in Turkey. Kurds, Turks, all people of Anatolia nowadays are killed with German weapons.

\* Today German imperialism is one of the most guilty powers, together with American, French and English

imperialism, in the exploitation of the people of the world, their torture and oppression. It supplies weapons, logistics, equipment and education to the fascist regimes.

\* Against the anti-imperialist organisation in Germany, the RAF, it organized hundreds of attacks, it killed its cadres and leaders. In this case the German

regime is merciless.

\* It doesn't take care of the common sense of the German people against fascism. It forbids especially the anti-fascist-liberation-organisations of the Middle East and hunts the revolutionaries.

\* In German jails people are oppressed, tortured and executed. The report of Amnesty International speaks of torturing in the police stations and jails.

\* German imperialists are standing behind the attacks of neo-fascist organisations against foreigners.

**There are other countries which could also be listed, including those prone to terrorism and their constituent organisations responsible for such terrorism. But the nations listed here built the «counter list» of people and they are the focus of terrorism. The biggest part of the crimes they have committed against the people of the world are listed in the files of the guilty ones. They are wrong if they think others are blind. The hate of the oppressed people of the world is growing with every passing day. Democratic forces and the people of the world are raising the flag of resistance against imperialism.**

**Imperialism is so busy with its profits and greed that it is blind to the immense power of resistance of the people. The memory of the people is long. Sooner or later imperialism will see and understand that the people will always have the last word.**

**THE POWER OF THE PEOPLE WILL DROWN IMPERIALISM  
IN HIS OWN BLOOD!**

**THE PEOPLE FIGHTING AGAINST IMPERIALISM  
AND FOR LIBERATION WILL WIN!**

**WE WILL WIN!**
